Sexy Hot Ice

The nice soft oval red capsule is very suggestive making you wonder what places you would like to put in your body. Sexy Hot and Ice gives two sensations at the same time while massaging body parts and melting with the heat of friction. It has no strong scent or aromas making it ideal for the sensitive people or for those who dislike strong smells. It is perfect to tease your partner.

Sexy Capsule

This special capsule will work wonders in the parts where it is applied. The wonderful smell of cinnamon mixed with clove oils will give you both a nice warm sensation upon melting, making you feel more relaxed and comfortable for a long lasting massage with no discomfort dues to the anesthetic effect. It does not have any aromas and it was not made for licking but you can enjoy the feeling as the body heats up.

Sexy Lotion

Feel the pleasure of a nice massage while you feel the effect on your skin after a few minutes of application. It is a product designed for women as its effect provides you with a nice sensation making it suitable for those parts where you wish to feel your skin a little bit tighter. With sexy lotion you can feel more pleasure for both you and your partner.

Sexy Aroma

It will be hard to decide what flavor you will want to try first for that body massage. With ten warm sensations, you can choose aromas to tease your partner by spreading a small quantity into your hands and massaging the body in soft movements. If you want a nice fresh iced sensation you can try the five different flavors to provide your partner with an exciting massage to make it more fun and enjoyable.
